Dear Madam:

In reply to yours of August 6th regarding Cottage Owners Association.

I find that on May 20th, 1922 I gave them a check for $450.00 as a loan, but have never received a note.

Regarding water for tennis courts. I doubt very much whether the spring that supplies Mr. Hall's house will be sufficient to supply water for the courts, and I do not see how he can find out until probably next year. If in the meantime the association wishes to run a pipe from the brook on my land, they have my permission.

There was an agreement drawn up by Mr. Donegan between the Cottage Owners and myself for a lease of the land on which the tennis courts are. I am unable to find this agreement, and do not remember whether it was ever signed or not. I shall be glad, however, to get together with the association and fix this matter up as soon as possible. A deed for this land was never contemplated.

I am returning the bills that you sent me as I feel that I have already paid more than my share towards these courts, and I do not personally feel like going to any further expense in regard to the courts.

In case the $450.00 is paid some time this season there will be no interest charged.

Yours truly,

H. L. Bowles
